Welcome to the Alpine church of Christ

June 13, 2021

Ordinary people serving an extraordinary God.

YOU are an important natural resource of the church in Alpine. Do you make yourself available to fellow Christians?

STILL reaching out on Friday nights! "Game night" reaches college-age students and community members. Thank you to our members who support this effort.

An update of the work with Sul Ross University and college-age students:

by *Caleb Hughes*

At the halfway point of 2021, the college group has seen considerable growth and made some great progress. We began the year by jumping into the first unit of our new, *Answers in Genesis* curriculum, which we studied weekly. We regularly had attendance ranging between 5-8 people every week, where we examined the curriculum and Scripture and had a host of excellent discussions. We recently finished the first unit of the curriculum and have begun Unit 2.

In the area of events, we have managed to put together numerous successful functions. We had a Super Bowl watch party in February that was well attended. We also hosted a Valentine's Day finger food luncheon for the church, put together an Easter Egg hunt for the children of the congregation, and gave out floral arrangements for Mother's Day to the church's ladies. Most impressive to me amongst this is that many of these functions were inspired and spearheaded by different members of our college group (especially our ladies), showing an admirable streak of volunteerism and leadership.

Our college group also met every Friday for game night, an event open to all age groups where we shared a meal, played games and had wonderful fellowship. It was always an excellent opportunity to bring college students off-campus and into our fold with food and camaraderie.

Looking towards the remainder of the year, I am optimistic about what the future holds. We are planning to continue our weekly Bible studies with those of our group who are still present through the summer and directly into the fall, where our numbers will rebound with the return of students to campus. Events will likely be somewhat sparse through the summer due to these lower numbers. Still, I anticipate that we will have better opportunities for events in the fall with the higher attendance and the progressing relaxation of the Covid-19 restrictions that were impediments last year. Our growth from the spring of 2020 has been significant both numerically and spiritually, as our group continually becomes woven closer together in spirit with every meeting.

I am hopeful for the future, and I am incredibly thankful for the support of the college ministry by the church. Our group and the church as a whole have been enormous blessings, and I have no doubt they will continue to be. I am excited to see how the Lord blesses us in the remaining months of 2021.
