Welcome to the Alpine church of Christ

October 17, 2021

Ordinary people serving an extraordinary God.

A special welcome to Don Stephens! Don recently placed membership with us.

Plan for the weekend of October 22-25

Wissam Al-Athewi is a guest speaker from Detroit, Michigan. Wissam's visit, the third to Alpine, will feature unique opportunities. Wissam studied his way into Christianity after childhood and early adulthood exposure to Islam. His family retains belief in Muhammed as the final prophet of God. Recently, Wissam has brought lessons about the Messiah to the Middle East. Please take advantage of this opportunity to learn about sharing the Gospel with others.

Agenda

Friday, October 22, 2021

Wissam arrives at the Midland airport (the Borders meet him at the airport at 4:30 p.m. He is staying at the Hampton Inn.)

Saturday, October 23, 2021

Wissam presents the Gospel and his view of teaching others. The evangelism workshop is from 10:30 until noon. We will have a light meal after the session. This is a great time to interact with Wissam.

Sunday, October 24, 2021

At 9:45 a.m. Wissam presents on his work in Detroit and around the world. The pandemic has not slowed things down. Wissam has much to share.

At 10:45 a.m. the Alpine church has a regular worship assembly, but Wissam will bring the lesson.

At noon the congregation meets in the annex for a potluck meal. This is another great time to interact with Wissam.

At 7:00 p.m. we hike Hancock Hill with a devotional led by Wissam.

Monday, October, 2021

Wissam leaves Alpine.

Davis Mountains Preserve

Like a little slice of New Mexico or Colorado plopped down into west Texas, the Davis Mountains Preserve offers thousands of acres of protected land in the Davis Mountains. The contrast between the arid lowlands of the surrounding Trans-Pecos area and the forested Davis Mountains are sure to solidify that west Texas is a place of beauty to be appreciated. One of three sky islands in Texas, elevations in the preserve can rise upwards of 8,300 feet. The Davis Mountains Preserve is home to the highest point in the Davis Mountains, Baldy Peak on Mount Livermore (8,378 ft). Planning a trip to the Davis Mountains Preserve will take some coordination, as it is not open year-round. It is recommended that interested visitors check out the D.M.P.'s website to see when "Open Days" are scheduled. The Preserve is home to a wide variety of flora and fauna including Ponderosa Pine, Texas Madrone, Mexican Oaks, black bears, elk, mountain lions, and a whole lot more, all in the pristine and rugged habitat of the Davis Mountains. For more information or to register for an upcoming Open Day, visit nature.org/davismountainspreserve. (Joe Ed)
